

# WELLSPRING BY SILKS

In Taipei,Taiwan (R.O.C.)

After years of preparation, Silks Hotel Group is excited to announce the grand opening of Wellspring by Silks Beitou—now open for bookings! Just steps away from Xinbeitou MRT Station, this new destination is designed for those seeking a refreshing getaway, offering rejuvenating hot springs, two exciting dining experiences, and a variety of wellness activities. Building on the success of Wellspring by Silks Jiaoxi, this second hot spring haven expands Silks Hotel Group's reach to 16 hotels and over 2,500 rooms, offering more ways for travelers and locals to experience luxury, warmth, and relaxation.

Located just a convenient three-minute stroll from the Xinbeitou MRT Station, the hotel offers 100 elegantly designed scenic rooms and suites with each room offering two private hot spring baths, while spacious suites feature three outdoor hot spring baths. The design of each room and public space harmoniously mirrors its natural surroundings, with tranquil tones and flowing patterns that evoke the calm beauty of Beitou's rocks and natural hot springs. The hotel environment boasts 16 private bathhouses, public hot springs, an outdoor pool, a kids' area, award-winning Wellspring SPA, and an art gallery and lounge space showcasing local talent. Built to Golden Green Building standards, the hotel emphasizes sustainability, blending eco-friendly design with luxury. On-site Japanese Onsen Bathing Instructors guide guests through hot spring culture and etiquette, while offering locally certified wellness programs.

Expanding on SHG's strength in culinary services, Wellspring by Silks Beitou introduces two more restaurants into the mix. Mihan Beitou, a Japanese hotpot restaurant with a vibrant dining atmosphere, complete with 116 seats, offers breakfast, lunch, and dinner. Similarly to the popular Mihan Honke restaurant located at Regent Taipei, Mihan Beitou also serves a variety of hotpot dishes, sukiyaki, and izakaya flare, each prepared with the freshest ingredients. The restaurant features an added farm-to-table element by incorporating a fresh salad bar filled with locally sourced vegetables from Yangmingshan. The new sukiyaki pots are uniquely designed to resemble farmers' hoes, in tribute to each dish's rural origins.

Bando Club, the hotel's new Taiwanese restaurant, captures Beitou's local charm and history to life with an array of banquet options. The restaurant features seven private dining rooms perfect for intimate groups of 10-20 guests, as well as a spacious banquet hall that accommodates 80-100 guests. Bando Club celebrates local flavors with specialties like savory pork ribs, Penghu squid noodles, and Regent Taipei's signature shaved ice dessert.

The two restaurants enhance the guest experience with comprehensive offerings, including overnight stay with meals, half and full-day meeting options, and a special Hot Spring & Dining package. Whether you're seeking relaxation, exquisite cuisine, or a unique getaway, Wellspring by Silks Beitou invites you to celebrate its opening with an unforgettable stay!
